<p>The Global Family BIS concentration combines two different perspectives on family experience, Family Studies &amp; Human Development and Geography. In Family Studies, students learn about family from the perspective of human development, family relationships, and diversity, sexuality, and intervention. In Geography, students learn from the perspective of the places where families live and interact as a larger global community, through understanding the physical geography of places, world regions, populations, and how to display this knowledge through cartography.</p> <p><b>"C" minimum grade required for all classes in the Global Family area of concentration.</b></p> <p><b>Students must complete a minimum of 12 upper division hours in each of the two areas, Family Studies &amp; Human Development and Geography.</b></p>
