Housing Intern

The City of Apache Junction announces an internship opportunity, to begin in August 2018.

Nature of Work: Interns are needed to assist the city with a housing conditions survey. Information and data will be collected on the housing units within the city for inclusion in the city's General Plan update. The information collected will assist the city in 1) identifying the condition of the existing housing stock, 2) articulating the need for various housing options, and 3) planning for housing programs and services. The quality of housing is a direct reflection of the prosperity within a community in which people wish to live, work, and play.

Qualifications: Applicants should have experience with a computer (Excel, Access, Word), and reading maps. Applicant must have a valid driver's license. GIS not required by preferred.

Compensation: This is an unpaid internship, but eligible for internship credit. See http://geoplan.asu.edu/interncredit for full credit requirements.

Time Requirement: Student work will be for a specific project from start to finish between August 2018 and December 2018.

Requires 10 hours per week. Work can be done based upon the student’s availability and schedule. Interns will work in teams of two, so schedule will need to be coordinated with teammate.

Location: City of Apache Junction
300 East Superstition Blvd.
Apache Junction, Arizona 85119

More Information: Questions may be directed to Heather Patel, (480) 474-2635, hpatel@ajcity.net

To Apply: Send a resume and cover letter (including availability) to Heather Patel at hpatel@ajcity.net.

Deadlines: Apply for internship by August 1, 2018
